

AgamiSoft Ltd.

Company Profile

1. About AgamiSoft

AgamiSoft Ltd. is an enterprise software company founded in 2015 and headquartered in Dhaka, Bangladesh. The company designs and delivers AI-powered business applications for clients in banking, retail, logistics, and healthcare. AgamiSoft employs approximately 240 people across three offices and serves customers in 12 countries.

2. Mission and Vision

Our mission is to make enterprise software intelligent, accessible, and dependable. Our vision is to become the leading provider of applied AI solutions in South Asia by 2030.

3. Core Values

- **Customer First:** We measure success by the outcomes our clients achieve.
- **Engineering Excellence:** We favor simple, well-tested, maintainable systems.
- **Integrity:** We are transparent with clients, colleagues, and partners.
- **Continuous Learning:** We invest in the growth of every employee.

4. Products and Services

AgamiSoft offers three primary product lines and a professional services practice.

Offering	Description
AgamiFlow	Workflow automation platform for back-office operations.
AgamiInsight	Analytics and reporting suite with natural-language querying.
AgamiAssist	Embeddable AI assistant framework for enterprise apps.
Professional Services	Custom development, integration, and AI consulting.

5. Leadership

The company is led by Chief Executive Officer Msaid Rahman and Chief Technology Officer Nabila Haque. The engineering organization is divided into Platform, Applied AI, and Client Delivery groups.
